WHO WE ARE

Hapa is a manufacturer and pioneering brand that was created to unbalance the market in favor of customers and the planet. We orchestrate the entire journey – from conceptualization and manufacturing to timely delivery from our factory to our customers.

Drawing upon extensive industrial expertise in faucet development and production, our product range is crafted and designed in Portugal, boasting a remarkable versatility that seamlessly aligns with diverse environments and preferences.

We are unwaveringly committed to significantly reducing the ecological footprint, prioritizing both customer satisfaction and the planet, since we believe that beauty should never compromise sustainability:

Nature leads the way, we just help.

QUEM SOMOS

A Hapa é um fabricante e uma marca pioneira que foi criada para desequilibrar o mercado a favor dos clientes e do planeta. Organizamos todo o percurso - desde a concetualização e fabrico até à entrega atempada da nossa fábrica aos nossos clientes.

Com base numa extensa experiência industrial no desenvolvimento e produção de torneiras, a nossa gama de produtos é fabricada e concebida em Portugal, ostentando uma versatilidade notável que se adapta perfeitamente a diversos ambientes e preferências.

O nosso compromisso é reduzir significativamente a pegada ecológica, dando prioridade à satisfação do cliente e ao planeta, pois acreditamos que a beleza nunca deve comprometer a sustentabilidade:

Nature leads the way, we just help.

NATURAL COLORS CORES NATURAIS

The finish that ages with time. This type of unprotected finish has the metal in their natural state and can be made with raw brass or raw copper that will oxidising organically. Every item has unique appearance and results from their use and surrounding environment.

O acabamento que envelhece com o tempo.

Este tipo de acabamento desprotegido tem o metal no seu estado natural e pode ser feito em latão bruto ou cobre bruto que irá oxidar organicamente. Cada item tem a aparência única e resulta de seu uso e ambiente circundante.

VARNISHED ENVERNIZADOS

The smooth finish. The varnished finishes are smooth and matte. The paint or lacquer it's applied with a blast gun, to give an extra resistance to abrasion of the material. Not recommended for the outdoor use or cleaning with abrasive detergents.

O acabamento liso.

Os acabamentos envernizados são lisos e mate. A tinta ou laca é aplicada com pistola de jateamento, para dar uma resistência extra à abrasão do material. Não recomendado para uso externo ou limpeza com detergentes abrasivos.

GALVANIC PLATING REVESTIMENTO GALVÂNICO

The everyday finish. The traditional finishes and one of the most common used. An electrodeposition plating it's made in the brass to obtain a layer with enough thickness to withstand abrasion and it's very easy to maintain.

O acabamento diário.

Os acabamentos tradicionais e mais utilizados. Um chapeamento de eletrodeposição é feito no latão para obter uma camada com espessura suficiente para resistir à abrasão e é muito fácil de manter.

GOLD OURO**The luxurious finish.**

With a Champagne Rosé or with a 24K Gold plating, this type of finish it's not for the average. Not recommended for outdoor use and can change it's brightness over time.

O acabamento luxuoso.

Com um Champagne Rosé ou com um banho de Ouro 24K, este tipo de acabamento não é para os medianos. Não recomendado para uso externo e pode alterar o seu brilho ao longo do tempo.

**PVD** PVD**The indestructible finish.**

PVD it's a Physical Vapor Deposition of particles that fuses with the material, creating an high level of hardness and exceptional resistance to corrosion.

The resistance atmospheric agents and cleaning detergents abrasion makes it suitable for outdoor use and it's very easy to maintain.

O acabamento indestrutível.

PVD é uma Deposição Física de Vapor de partículas que se funde com o material, criando um alto nível de dureza e excepcional resistência à corrosão. A resistência aos agentes atmosféricos e à abrasão dos detergentes de limpeza torna-o adequado para utilização no exterior e é muito fácil de manter.

HAPA MANUFACTURER WARRANTY

5 YEARS WARRANTY

We believe in the quality and durability of our products, which is why we voluntarily offer a 5-year warranty extension.

General Information

HAPA, a brand of the MCT group (Metalúrgica Central da Trofa, Lda), offers its customers a Manufacturer's Warranty on all its products.

For purposes of this Manufacturer's Warranty:

- "Consumer" is any natural or legal person who owns the product and has not acquired it with the aim of reselling or installing it to third parties in the exercise of commercial or professional activities.
- In addition, we consider "Initial Customer" to be the first to purchase Hapa branded products, a reseller or any other natural or legal person, who resells or installs the product in the exercise of their commercial or professional activity.

Warranty period

The warranty period begins on the date the Initial Customer wishing to claim the warranty purchased a HAPA branded product. The date of purchase must be supported by the original invoice.

It is essential that the original invoice contains the purchase data.

This warranty applies to all HAPA branded products for a period of 5 years from the date of purchase as stated on the original invoice.

How to trigger a warranty claim?

Rights under this warranty may be asserted by the Consumer within the warranty period upon written notification of defects to HAPA or the retailer from whom the Initial Customer purchased the product.

It is mandatory that the Consumer proves with the original invoice that the guarantee has not expired.

The prerequisite for the validity of this warranty is professional installation and maintenance. This includes, but is not limited to, ensuring that water pipes are properly flushed to normal applicable standards, especially prior to product installation or after construction work.

The warranty claim does not cover:

Wearing parts such as seals, sealing rings, soap dispenser pumps, due to wear; damage caused by improper installation; products installed in environments with a high chlorine content, such as swimming pools; display products; consumables such as batteries, filters or aerators, due to consumption; dirt injections, limescale deposits, operating and handling errors, damage due to aggressive environmental influences, chemicals, and cleaning agents;

The warranty period ends:

In case of damage caused by force majeure or natural disasters, in particular, but not exclusively, floods, fires or frost; for products that have not been used or are not being used in accordance with their intended purpose; in the event of non-compliance with the instructions for assembly, care and use provided; if installation, maintenance and repair or care has not been carried out by a specialist; in case of damage caused by the seller, installer or third parties; if the damage is caused by negligence, contributory negligence; in case of inadequate or faulty maintenance;

Non-applicability of the warranty

If it turns out that a defect in the product is not covered by this guarantee, the costs of shipping and transporting the product must be borne by the Consumer. In addition, the Consumer must bear the costs incurred in investigating the products and the costs of dismantling and reinstalling the product. If the Consumer has been informed that the warranty does not apply, but still wants the repair carried out, the Consumer must bear the additional costs of replacement parts and labor costs.

Final provisions

This warranty applies to any future owner of the product who is a consumer and subject to the conditions set out above. This guarantee is subject to the law of PORTUGAL.

GARANTIA DO FABRICANTE HAPA

5 ANOS DE GARANTIA

Acreditamos na qualidade e durabilidade dos nossos produtos, por isso oferecemos voluntariamente uma extensão da garantia para 5 anos.

Informações gerais

A HAPA, marca do grupo MCT (Metalúrgica Central da Trofa, Lda), oferece aos seus clientes a Garantia de Fabricante em todos os seus produtos.

Para os fins desta Garantia de Fabricante:

- “Consumidor” é toda pessoa física ou jurídica que seja proprietária do produto e não o tenha adquirido com o objetivo de o revender ou instalar a terceiros no exercício de atividades comerciais ou profissionais.
- Adicionalmente, consideramos “Cliente Inicial”, aquele que foi o primeiro a adquirir produtos da marca Hapa, um revendedor ou qualquer outra pessoa singular ou coletiva, que revenda ou instale o produto no exercício da sua atividade comercial ou profissional.

Período de garantia

O período de garantia começa na data em que o Cliente Inicial que deseja reivindicar a garantia adquiriu um produto da marca HAPA.

A data de compra deve ser comprovada pela fatura original.

É imprescindível que a fatura original contenha os dados da compra.

Esta garantia aplica-se a todos os produtos da marca HAPA por um período de 5 anos a partir da data de compra conforme consta na fatura original.

Como acionar uma reclamação de garantia?

Os direitos sob esta garantia podem ser reivindicados pelo Consumidor dentro do período de garantia mediante notificação por escrito de defeitos para a HAPA ou o revendedor a quem o Cliente Inicial comprou o produto.

É obrigatório que o Consumidor comprove com a fatura original que a garantia não expirou.

O pré-requisito para a validade desta garantia é a instalação e manutenção profissional. Isso inclui, mas não está limitado, garantir que os tubos de água sejam devidamente lavados de acordo com os normais padrões aplicáveis, especialmente antes da instalação do produto ou após o trabalho de construção.

A reclamação de garantia não cobre:

Peças de desgaste, como vedações, anéis de vedação, bombas dispensadoras de sabão, devido ao desgaste; danos causados por instalação inadequada; produtos instalados em ambientes com alto teor de cloro, como piscinas; produtos de exposição; consumíveis como baterias, filtros ou areadores, devido ao consumo; injeções de sujidade, depósitos de calcário, erros de operação e manuseamento, danos devido a influências ambientais agressivas, produtos químicos, e agentes de limpeza;

A validade da garantia termina:

Em caso de danos causados por força maior ou desastres naturais, em particular, mas não exclusivamente, inundações, incêndios ou geadas; para produtos que não foram usados ou não estão a ser usados de acordo com a finalidade a que se destinam; em caso de incumprimento das instruções de montagem, conservação e utilização fornecidas; se a instalação, manutenção e reparação ou cuidados não tiverem sido realizados por um especialista; em caso de danos causados pelo vendedor, instalador ou por terceiros; se o dano for causado por negligência, negligência contributiva; em caso de manutenção inadequada ou defeituosa;

Inaplicabilidade da garantia

Caso se verifique que um defeito do produto não está coberto por esta garantia, os custos de envio e transporte do produto deverão ser suportados pelo Consumidor. Além disso, o Consumidor deve arcar com os custos incorridos na investigação dos produtos e os custos de desmontagem e reinstalação do produto. Caso o Consumidor tenha sido informado de que a garantia não se aplica, mas ainda deseje que a reparação seja realizada, o Consumidor deve suportar os custos adicionais das peças de reposição e custos de mão-de-obra.

Disposições finais

Esta garantia aplica-se a qualquer futuro proprietário do produto que seja um consumidor e sujeito às condições estabelecidas acima.

Esta garantia está sujeita à lei de PORTUGAL.
